OBJECTIVE

Curious and creative 2nd-year Computer Science Engineering student specializing in IoT, Cybersecurity, and Blockchain. Combining a background in web design and visual content with strong programming skills in Python, Java, TypeScript, and Flask to build secure, scalable, real-world applications and user-centric digital experiences.

EDUCATION

Dwarkadas J. Sanghvi College of Engineering B.Tech in Computer Science & Engineering (IoT, Cybersecurity & Blockchain)	Mumbai, Maharashtra Sept 2025 – 2029
Ryan International School HSC: 93.75% SSC: 98.8% MHT-CET: 97.66 percentile	Mumbai, Maharashtra 2013 – 2025

INTERNSHIP

QSkill — Python Developer Intern	Mumbai, Maharashtra June 2026 – July 2026
- Built 3 Python applications including a LEGO data analysis tool, matrix computation program, and Flask sentiment analysis web app. - Utilized NumPy, Pandas, and Flask to clean, process, and analyze datasets for optimized application backend flow.	

PROJECTS

Listrr: Mobile App Built a list management app enabling users to create checklists, bulleted or numbered lists, and organise them seamlessly with tags, search, and light/dark modes.	React Native, Expo, TypeScript
Petals & Prose: Blog Site Developed a literature blog site featuring blog creation, user likes and comments, and a database-backed post discovery system highlighting popular content.	Python, Flask, Flask-SQLAlchemy
Lego Data Analysis Project Created a Flask web app exploring Rebrickable LEGO datasets, generating summary statistics and interactive visualisations including scatter plots and trend charts.	Python, Pandas, Matplotlib, Flask
Intellihire AI: AI Hackathon Project Engineered an AI-powered technical interview prep platform conducting multi-turn interviews with session persistence, API routing, and anti-prompt guardrails.	Tailwind CSS, Supabase, Groq/Gemini API
Snake Game: Python GUI Application Recreated the classic arcade game featuring smooth gameplay, food collection scoring, persistent high scores, and robust collision detection.	Python, Turtle Graphics

SKILLS

Tech Skills: Python, Java, C, TypeScript, JavaScript, SQL, Flask, Expo, NumPy, Pandas, HTML5, CSS3, Bootstrap, Git, GitHub
Soft Skills: Problem Solving, Creativity, Adaptability, Collaboration, Time Management, Public Speaking

INTERESTS & ACTIVITIES

Co-Curricular: Participated in vibe coding hackathons; attended Automation Expo 2026 exploring robotics, IoT, and cybersecurity tech.
Extra-Curricular: Events & PR Committee Member for DJS DHADAK (hosted events, managed outreach, vendor logistics, and building events for 500+ students); published writer on Medium.

HOBBIES & COMMUNITY SERVICE

Hobbies: Music, writing, gymnastics, visual design & video editing, exploring random topics.
Community Service: Volunteer with Beach Please for the Mithi River Cleanup Drive; active participant in local voluntary blood donation drives.
